JOURNEYMEN PRINTERS. John C. Rives, for many years public printer at Washington, in a letter published not a great while since, pays the following well merited compliment to journeymen printers. He says:

"I have seen the manuscript writing of most great

men of the country during the past twenty years, and I think I may say that no twenty of them could stand the test of the scrutiny of one half of the journeymen printers employed in my office. This fact will be vouched by every editor in the Union. To the poor 'jour' many a 'great man' owes his reputation for scholarship, and were the humble type- tickers to resolve, by concert, to set up manuscript in their hand, for even one fittle week, precisely as it is written by the authors there would be more reputations slaughtered than their devils could shake a stick at in twenty-four hours. State-men would become small by degrees and beautifully less.' Many an ass would have the lion's hide torn from his limbs. Men, whom the world called writers would wake up of a morning and find themselves -famous as mere pretenders | the last few days, several letters threatening his -lumbons-cheats.

Hair Restorative We call the attention of all, old and young, to this wonderful preparation, which turns back to its original color gray hair—covers the head of the bald with a luxurant growth-removes the dandruff, itching, and all cuts ruptions causes a continual flow of the natural fluids and hence, if used as a regular dressing for the hair, will preserve its color, and keep it from falling to extreme old age, in all its natural beauty. We call, then, upon the baid, the gray, or diseased in scalp, to use it: and surely, the young will not, as they value the flowing locks, or the witching caris, ever be without it. Its praise is upon the

Waternoon, Mass., July 25, 1855.

Prop. O. J. Wood:—With confidence, do I recommend your Hair Restorative, as being the most efficacious article I ever saw. I have used the Walphene and other preparations of the day, all without effect. Since using your Hair Restorative, my hair and whiskers, which were almost white, have gradually grown dark; and I now feel confident that a few more amplications will restore them. confident, that a few more applications will restore them to their natural color. It also has relieved me of all dat druff and unpleasant itching, to common among per sons who perspire freely.

J. G. KILBY.

North East Passertvania, March 9, 1855.

Sin:—In consequence of having bair, for several years past, not only gray but perfectly white, I have cut it short, and worn caps to hide it from view; but some three outs since, I was induced to use your Hair Restorative, and I must, in justice say, that its effects were almost miraculous; for at has changed it gradually to almost its former splendor as to color, and left it so soft and glossy as to be more beautiful than it ever was, when under the indusence of the finest oil. I carnestly, therefore, recommend it to every lady as the best preparation for toilet use, of anything in the world.

BETSY SMITH. NORTH EAST PENNSYLVANIA, Merch 9, 1855. of anything in the world.

Prov. Woon: —Having experienced the magic effect of your Hair Restorative, I drop you this upon the subject. About two years ago, my hair commenced failing off and turning gray; I was fast becoming bald. I met a friend who had used your Restorative, and spoke so highly of its virtues, I was induced to try it, although I had but little faith, as I had before tried so many other remedies. I commenced using your Restorative is January last. A few applications astened my hair firmly. It began to fill up, grow out, and torned back to its former color, (black.) At this time, it is fully restored to its original color, health and appearance, and I cheerfully recommend its use to all. Chicago, Illi., May 1, 1834.

Mil. Fogs, Wordester, co, Mass., Nov. 18, 1854.

Prog. O. J. Wood—Dear Sir: I take pinsure in hearing voluntary testimony to the magic effect of your wonderful Hair Restorative. As far back as 1888, my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement, I was induced to give your article a trial, and to my utter asionishment, I found, after a few applications, that my hair became firmly set, and assumed a glossy and beautiful appearance; and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing fast rigorous growth of unit, wing fast henry Goodrich, and growing fast HENRY GOODRICH,

New York, Oct. 2. 1854.

Prof. O. J. Woon—Dear Sir: After reading the advertisement in one of the New York journals, of your celebrated Hair Restorative, I procured a half-pint bottle, and was so much pleased with it, that I contined its use for two months, and am satisfied it is decidedly the best preparation before the public. It at once removed all dandruff and unpleasant itching from the scalp, and has restored my hair naturally and, I have no doubt, permanently so.

You have permission to refer to me, all who entertain any doubt its performing all that is claimed for it.

MISS FLEKS, 26 1-2 Greenwich Avenue. New York, Oct. 2, 1854.

I have used Professor O. J. Wood's Hair Restorative, and have admired its wonderful effects. It restored my hair where it had fallen off; it cleans the head, and render the hair soft and smooth—much more so than oil.

LIVE AND LEARN.

A GOIDE FOR THOSE WHO WASH TO SPEAK AND WHITE CO.

A Geros for those who wish to Prak and water con arcalx.

Particularly intended as a book of reference for the solution of difficulties connected with Grammar. Composition, Punctuation, &c., with explanations of Latin and Prench words and phrases of frequent occurrence in Newspapers, Reviews, Periodicals and books in general, containing examples of one thousand mistakes of daily occurrence in speaking, writing and probunciation.

"LIVE AND LEARN" is a most useful book designed as a guide to Grammar, Composition and Punctuation. So few people speak or write really good grammar, and fewers still punctuate decently, that a book that informs them how to do so—and not only indicates their faults, but shows them how they are to be corrected—cannot full to be popular; there is not a person, indeed, who might not learn something from it. As a book of reference, "Live and Learn" will settle many disputes. It ought to be on every table, and be particularly recommended to the young before habit makes common blunders uncommon hard to cure.

HOW DISEASED ACTION OF DOMES ESTABLISHED AND THE ELOODIMPURE.

Agreat error has long provailed in the minds of medicat men, "That impurity of the blood is the cause of discussed action." This is a serious mistane. It is a disturbance of the circulation, and the establishmen. It is a disturbance of the circulation, and the establishmen. It is a disturbance of the circulation, and the establishmen. It is a disturbance of the circulation, and the establishmen. It is a disturbance of the causes impurity of the blood.

The st. K. K. theory holds the truth of the above maximit, for if a person be in a state of perfect bealth, each artery and went must carry to and from the heart its allotted portion of blood, and when any set of vessels refuse (by the cause what it may) to carry their proportion, the current of blood becomes dammed up; in other words, a congestion takes place, giving pain to a greater or less extent. Here, then, is the beginning of diseased action, which, if not relieved, will soon run into infamination, and the disease become established. Diseased action being once established, the blood becomes impure, and the regularity of action on the part of the liver, and, bowels, dec., is sure to be interruped, and the general system, by sympathising with the local complaint, becomes involved in the distinity. That this is the true state of the case, let any one call to mind his symptoms on catching end. The local difficulty may be a fore throat, which is a confusion of the blood, amounting sometimes to an inflamination about the throat, owing to provious deranged state of the circulation; and be will remember that his bowels become ones, in the liver deranged or his skin dry and feverish, his head stopped up, pains and achies in his bones become ones, and now, will many other unpleasant and painful symptoms. Had he used Radway's Ready Ecologistic was setting in an an application to the threat, and swallowed a do

particle of consumptive material in their bodies to having decay. Radway's negulators, in these cases, keep the sys-tem regular, and equalize the circulation of the blood.

THE PIRST SIGN. THE FIRST SIGN.

The presence of pimples, blotches, pastules, tetters, rash, little sores, primit litchings, hot durings, &c., are sum indications of the presence of large and impure humors in the system, and if allowed to minute with the those and remain in the system, conveying the bood and allow the sewers of the body with impurities, sores and micers with break out and caver the body with their repulsive presence.

The skin, under these potonous indicances, becomes an eraptive volcano, exhibiting to the eye the disgrating lave of disease in the form of sait, theory, uncert, albors, fover sores, partid fiesh, king's exil, and lite most irightful eruptions of the skin.

LARGE HOLES IN THE NECK.

An Emigrant called upon us a few meants since, who had been troubled with the disease called King's Evil. He had two very large holes in his neck, and his head, body and legs were covered with the most disgusting and satisfacing sores. We immediately placed him under the influence of the Resolvent. In six weeks from the time he called upon as every sore was heated. Not even a sore was left upon his body to remind him of the King's Evil.

This man, like thousands of other deluded persons, had thrown himself presirated before two Emperors, loss King's, and one Quocu, to be teached by the fingers of Eoyalty, believing that the lands of their "most served materias.
